

HELP!

Veterinary Care

In these tough economic times, affording to keep your pet is difficult, and the last thing you want to cope with is an ill or injured pet. The first step is to ask your animal hospital or private vet whether they offer a payment plan.

If your vet doesn't have a payment plan or other options, the following organizations may be able to help. Please note, Cat Guardians is in no way affiliated with any of the following organizations, so you will need to contact them directly for information on their programs and their fees. Some organizations only do vaccinations, while others provide for more comprehensive medical care for your pet. Calling the organizations directly or visiting their website will give you more information.
